TECHNICAL SKILLS

Programming Skills: Java, Python, C , JavaScript, Object-oriented programming, Data Structures and Algorithms

Frameworks and Tools: HTML5, CSS3 and Bootstrap, OpenCV, YOLOv5, Visual Studio Code, GitHub, Cursor, Bolt, Claude

Databases: SQL (MySQL, Oracle), Mongodb (Mongo Shell, MongoDB Compass)

PROJECTS

AI-powered Crowd Management - Python | OpenCV | YOLOv5| Flask | HTML | CSS   **July 2025**
- Developed a real-time crowd detection system using AI and OpenCV to count people from a live video feed. Integrated deep learning models with a Flask-based web interface for visualizing crowd density and managing public safety alerts.

Expense Tracker [GitHub↗] **- PHP|SQL|HTML|CSS|JS**   **July 2024**
- Designed a web-based expense tracking system using PHP and MySQL, designed to support over 100 students. Implemented secure user authentication, data storage, and financial reporting for efficient expense management.

15-Puzzle Game [GitHub↗] **- C**   **December 2023**
- Built a console-based 15-puzzle game using arrays in C. Implemented logic for shuffling tiles, validating moves, and checking win conditions. Improved problem-solving skills and understanding of data structures.

CERTIFICATIONS

- Python Full Stack Virtual Internship- Certificate ↗
- Avinya-2024 (Hackathon)-Certificate ↗
- Microsoft Azure AI Fundamentals- Certificate ↗
- Tcs Ion Young Professional Course- Certificate↗
- Hackfusion - 2K25 (Hackathon)-Certificate↗
- ThirdEye Data Learning Path Program-Certificate↗

ACHIEVEMENTS

Top 1 Performer – ThirdEye Data Learning Path Program   Aug 2025
Hackfusion - 2K25 (National Hackathon)   Apr 2025
TCS Tech Bytes (Quiz Competition)   Feb 2025
Avinya College Hackathon   July 2024
National Science Day   Feb 2023
